With its intense, natural moisturizing properties, it keeps your skin hydrated and soft all day long, while coconut oil and citrus essential oils leave your skin with a fresh, tropical scent.

KEY INGREDIENTS

Mango butter, cupuacu butter, coconut oil,
Lime essential oil

EXPERIENCE

Indulge your skin and prevent dryness with the luxurious moisturizing properties of our Coconut-Lime Replenishing Body Butter. This tropical-smelling butter provides moisture and conditions your skin, leaving it feeling smooth and hydrated all day long.

PRODUCT BACKGROUND

Our Coconut-Lime Replenishing Body Butter is formulated with two exotic butters known for their skin-nourishing properties: mango butter and cupuacu butter. Mango butter is highly emollient to soften and soothe skin, while cupuacu butter contains fatty acids that help skin maintain a healthy and youthful appearance. These ingredients, combined with the ultra-moisturizing properties of coconut oil and the uplifting scent of Lime essential oil, make this a must-have step in your daily skin care regimen.

FREQUENTLY ASKED QUESTIONS

Q. What kind of coconut oil is used in Coconut-Lime Replenishing Body Butter?

A. Both fractionated coconut oil and virgin coconut oil are used in this product. Fractionated coconut oil has had the long-chain triglycerides removed, leaving only medium-chain triglycerides and making it a saturated oil.

Q. What is cupuacu butter, and how is it sourced?

A. Cupuacu butter is a soft, nourishing butter that easily absorbs water. It's obtained by cold-pressing the fruit seed of the Brazilian cupuacu tree, which is related to the cacao tree.

Q. How does Coconut-Lime Replenishing Body Butter absorb? Does it leave a greasy feeling?

A. The body butter spreads easily and quickly absorbs into the skin, leaving no greasy feeling.
