

## PRODUCT SUMMARY

Imagine a summer night in the backyard. While your children are running, playing, and discovering the world, you can sit back and enjoy the night, knowing that you and your kids will be free from mosquitos and ticks, thanks to using Young Living Insect Repellent Wipes.

Young Living Insect Repellent Wipes are formulated without synthetic ingredients. Ninety-nine percent of the repellent blend is made up of sesame oil and a combination of essential oils traditionally used to repel insects, while the remaining 1 percent is made of vitamin E. You can feel confident that you're not exposing yourself or your family to DEET or other harsh chemicals.

In addition to a naturally derived formula, our Insect Repellent Wipes offer a bright, citrusy aroma and apply smoothly to skin without leaving a sticky, greasy residue. Kids and adults alike will love knowing that their next adventure will be natural, comfortable, and bug free.

## KEY INGREDIENTS

Citronella, Lemongrass, Rosemary, Geranium, Spearmint, Thyme, and Clove essential oils

## EXPERIENCE

Young Living's Insect Repellent has a naturally derived, hypoallergenic formula that leaves skin feeling smooth and moisturized instead of greasy or sticky.

## PRODUCT BACKGROUND

While many companies resort to using harsh DEET or other synthetic chemicals to keep bugs away, we put in the time to find an effective formula that is completely derived from natural sources.

In addition to avoiding DEET, our Insect Repellent Wipes are formulated without parabens, fillers, phthalates, petrochemicals, animal-derived ingredients, or synthetic preservatives, fragrances, or colorants. They're even gentle enough for children when used as directed.

## BENEFITS & FEATURES

- Clinically tested to repel mosquitoes and ticks and to prevent bug bites
- Repels insects naturally, with 99 percent active ingredients, plus 1 percent vitamin E
- Formulated with essential oils traditionally used for their insect-repellent properties
- Formulated without DEET, parabens, fillers, phthalates, petrochemicals, animal-derived ingredients, or synthetic preservatives, fragrances, or colorants
- Rubs easily into skin without a greasy or sticky finish
- Formula is free from harsh chemicals
- Appropriate for use on children when used as directed
- Offers continued protection when reapplied after two hours
- When applying to animals, avoid contact with animal's eyes, nose, mouth, and open wounds.
- Convenient individually wrapped wipes for on-the-go use
- Wipe material is 100 percent compostable, biodegradable, and sustainable

# INSECT REPELLENT WIPES

## DIRECTIONS

Wipe exposed skin with a single wipe for quick, effortless application. Reapply as needed. Avoid contact with clothing, as product can stain fabric.

## CAUTIONS

Keep out of reach of children. For external use only. Causes eye irritation. Keep away from eyes and mucous membranes. Adult supervision required when applying to children. Do not apply to children's hands. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Non-active ingredients: Vitamin E (1%), Cellulose  
†100% pure, therapeutic-grade essential oil

## FREQUENTLY ASKED QUESTIONS

### Q. How often should this product be applied?

A. It can be applied every two hours or as needed. If you are sweating, swimming, or wiping your skin, apply more frequently. If you notice irritation after extended or repetitive use, contact a physician.

### Q. Can children use the Insect Repellent Wipes?

A. Yes, children can benefit from using the wipes under adult supervision and administration. They are formulated to be hypoallergenic and appropriate for those with sensitive skin, but avoid using the wipes on children's hands.

### Q. Why were these essential oils chosen for the Insect Repellent Wipes?

A. The essential oils (Citronella, Lemongrass, Rosemary, Geranium, Spearmint, Thyme, and Clove) were selected because they have been used traditionally for their bug-repellent properties.

### Q. Why is vitamin E included in this product?

A. Vitamin E is included to help preserve the product.
