

PRODUCT SUMMARY

Refresh and recover from a day in the sun with Young Living's LavaDerm™ After-Sun Spray. This naturally derived after-sun spray offers temporary relief from the pain and itching of minor burns, minor cuts, sunburns, scrapes, insect bites, and minor skin irritations, so your family can keep playing all day.

Using menthol from mint, this spray soothes and cools the skin. Plus, its moisturizing qualities—from ingredients such as aloe, Lavender essential oil, and Helichrysum essential oil—also help prevent peeling from sunburn and leave skin feeling soft and smooth instead of tacky or sticky. With a vegan-friendly formula and made without alcohol, synthetic fragrances, or synthetic colorants, LavaDerm After-Sun Spray is ready for the whole family to use at the beach, on a hike, or during any outdoor playtime.

KEY INGREDIENTS

Natural menthol, Lavender essential oil, Helichrysum essential oil, Northern Lights Black Spruce essential oil, and aloe

EXPERIENCE

LavaDerm After-Sun Spray makes immediate cooling relief easy with a spray application and non-sticky formula that leaves your skin soft, smooth, and comfortable.

PRODUCT BACKGROUND

Many after-sun sprays contain harsh chemicals and artificial ingredients, but Young Living's LavaDerm After-Sun Spray was designed to offer something better. Made with naturally derived ingredients and therapeutic-grade essential oils specially chosen for their soothing properties, this unique topical analgesic uses natural menthol from mint for effective cooling relief.

†100% pure, therapeutic-grade essential oil

FREQUENTLY ASKED QUESTIONS

Q. Should I rub LavaDerm After-Sun Spray into my skin after spraying it on?

A. Yes, LavaDerm After-Sun Spray provides a better, more even cooling effect when it is lightly rubbed into or spread across the skin after spraying on.

Q. Can LavaDerm After-Sun Spray be refrigerated for an added cooling effect?

A. Yes, LavaDerm After-Sun Spray can be stored in the refrigerator for added cooling, but the lotion doesn't spray out as uniformly when it's chilled.

Q. What is the difference between LavaDerm Cooling Mist and LavaDerm After-Sun Spray?

A. LavaDerm Cooling Mist uses a liquid mist to lightly refresh and moisturize dry skin after time outdoors. In contrast, LavaDerm After-Sun Spray is a spray lotion that contains natural menthol and can be used to soothe and cool skin from minor burns, sunburn, bites, and irritations.
