PRODUCT BACKGROUND

Young Living's exclusive artisan diffusers are created to be statement pieces in your home, incorporating fluid, natural shapes and soft, cloud-like hues. Each one comes from the south of China along the Pearl River Delta—from an area known as the "Fragrant Mountain," in reference to the many flowers that grow nearby. This region has been inhabited by craftsmen, poets, and creative thinkers since the Northern Song Dynasty nearly 1,000 years ago. Today the spirit of craftsmanship continues, and the Lustre and Lucia Artisan Diffusers are handmade by

master glassblowers, combining traditional practices with modern technology. To reach the status of master glassblower, an apprentice must complete at least two years of intensive training. In this time, each artisan is trained to know the molten glass intimately in order to work it into a final masterpiece. Young Living is proud to bring these works of art from master craftsmen to your home.
