

YOUNG  LIVING®  
ESSENTIAL OILS

# Introducing Green Omega 3™ softgels

# Key benefits

- **Powerful:** Contains one of the highest amounts of DHA and EPA on the market, fatty acids the body cannot create on its own
- **Sustainable:** Vegan-friendly capsule with omega-3s sustainably sourced from algae
- **Nutritional:** Formulated with Young Living<sup>®</sup> Clove premium essential oil, a powerful antioxidant ingredient that contributes to an effective omega-3 supplement
- **Palatable:** Excellent source of omega-3 fatty acids without the fishy aftertaste

# Green Omega 3™ softgels

- Green Omega 3 softgels provide a vegan, plant-based alternative to OmegaGize<sup>3</sup>® capsules. Omega-3 fatty acids are shown to support brain function and support the immune system.\*
- This product will replace the existing OmegaGize<sup>3</sup> offering. No matter what your diet restrictions are, Green Omega 3 softgels work for everyone!

# Ingredients

- Provides 330 mg of DHA per two-softgel serving
- Provides 160 mg of EPA per two-softgel serving
- Contains Young Living<sup>®</sup> Clove essential oil, a powerful antioxidant ingredient
- Contains flaxseed oil, which provides ALA
- Contains sustainably sourced algal oil, rich in omega-3 fatty acids

# Key ingredients

- Algal oil, flaxseed oil, and Clove oil
- Capsule material made of tapioca starch, glycerine, and water
- Simplified, 7 ingredient formula

# Usage

Green Omega 3 can be taken when convenient for you- with or without food! All it takes is 2 softgels a day.

# Did you know?

- Most people don't get enough DHA or EPA from their diet. That's why it's important to supplement with the best sources from the earth while saving the earth.
- 1/3 of ocean fisheries are currently overfished, and 2/3 are fished to their maximum sustainable yield.
- As demand for omega-3 fatty acids increases, so will demand for sustainable sources.

# Did you know?

- Young Living uses algal oil.
- This algal oil is sustainably cultivated, as it's fermented from non-GMO algae in a proprietary indoor process that prevents potential interaction with the environment. This makes it a sustainable way to fulfill nutritional needs.

# The benefits of Green Omega 3™ algal oil

- Vegan friendly
- No fishy aftertaste
- Sustainable
- Algae superfood
- Higher potency versus other capsules on the market, due to Algae and flaxseed, providing higher DHA/EPA levels

# The Omega-3 Business Opportunities

- The global omega-3 supplements market size was valued at \$5.58 billion USD in 2020 and is expected to continue growing through 2028.
